

Understanding the Opportunity Catalog

As a Girl Scout troop leader, you help the girls in your troop shine brightly every day. With the Opportunity Catalog, new girls can shine, too - through a tool that gives them the power to choose a troop that fits their needs, schedule and interests. Will your troop be the spark that helps a new girl shine?

When a girl selects your troop, troop leaders will receive an email with parental contact information. Please contact the parent within 2 days to invite the new girl to your meeting. Parents will not receive your contact information and will have only a general idea of your meeting location, so it's important to extend this invitation as soon as possible. Thank you for welcoming new girls to your troop!
