

Understanding the Participation Catalog

As a Girl Scout troop leader, you help the girls in your troop shine brightly every day. With the Participation Catalog, new girls can shine, too - through a tool that gives them the power to choose a troop that fits their needs, schedule and interests. Will your troop be the spark that helps a new girl shine?

When a girl selects your troop, troop leaders will receive an email with the parent/caregiver's contact information. Please contact them within 2 days to welcome & invite the new girl to your meeting. The family can view leaders' contact information in their My GS Account though will have only a general idea of your meeting location, so it's important to extend this invitation as soon as possible. Thank you for welcoming new girls into your troop!
