Transfers:

View this video: <u>Creating a Troop to Girl Transfer Order - YouTube Video</u> (Troop to girl) or follow these instructions.

Log into Smart Cookies and navigate to Orders>Transfer Order. Your Service Unit and Troop will automatically be selected as the "From" Troop. Click on the arrow next to "Girl", highlight the girl receiving cookies, and hit Apply.

Enter the number of packages for the girl. Entries in the "Packages" column will transfer financial responsibility to the girl. Entries in the booth column will give girl credit for recognitions but not assign financial responsibility. It is strongly recommended to use the Smart Booth Divider to allocate booth packages. Notes are optional. Click Save. You can then create another transfer or go to manage orders. Use receipts to back up all transactions.

NOTE: Other transfer types are girl to Troop, girl to girl and Troop to Troop (depending on council preferences). Basic function remains the same. For Troop-to-Troop transfers, only the receiving Troop can

initiate the transfer. In this case your Troop will automatically populate as the "TO" Troop and you will be able to select the Troop that transferred the product to you. Use receipts to back up all transactions.

Troop Site Link and Troop Pick Up Orders

If a Troop has set up their virtual links in Digital Cookie, they will need to distribute among the girls. There are multiple order types that might be generated based on Troop set up. Here is how to post each order in Smart Cookies to keep Troop inventory up to date and give credit to girls.

 Orders for the Troop for delivery When the Troop sets up their Troop site in Digital Cookie, they have the option to choose to offer delivery on any orders generated by the Troop link. Orders will appear on the Digital Cookie All Orders report with the designation In Person Delivery. The girl first name will display as "TroopXXXX" and the last name will appear as "Site". Once the orders are approved the total sales will appear on the Troop booth reservation page as a Virtual Delivery. All sales for the season will populate into this booth section. Use the Smart Booth Divider to allocate the cookies to the girls. Once cookies are allocated to girls, the Troop inventory will be adjusted to remove the sold and delivered packages.

2. <u>Virtual Booth Pick Up Orders</u> Troops have the option in Digital Cookie to allow customers to pre-order cookies and pick up at an existing booth location. Navigate to Virtual Booths tab on the Troop dashboard in Digital Cookie and select ADD PICK UP to the booth locations. All orders must be approved in Digital Cookie and will be designated in the All Orders reports with the order Type "Pick-Up". You can also run the Booth Sales Credit Card Export Report and filter for Type "Pick Up" and location date and time of booth. Both reports will show the same order details. Once the cookies are picked up, add these totals to the number of packages sold to any walk-up customers and enter in the Smart Booth Divider for that booth location. Using the Smart Booth Divider, allocate the cookies to girls as desired.

Just In Time – Girl Delivery Cookie Share Orders

When girls receive cookie share orders via Digital Cookie for girl delivery or from in person sales, the troop level volunteer must create the transaction in Smart Cookies for the girl to receive credit for the sales. NOTE FOR ORDER TAKING COUNCILS – any Cookie Share orders received during the initial order period will post to the troop initial order. Follow these steps for orders after the initial order.

Troop volunteers can check the All Order Data Report on their troop dashboard in Digital Cookie to view any cookie share orders that need to be entered for a girl. Cookie share cookies can be found under order type In-Person Delivery with Donation, Cookies in Hand with Donation or Donation. For cash orders, be sure to collect the payment and post in Smart Cookies.

To enter a Cookie Share sale for the girl, watch this video <u>Virtual Cookie Share Order- Order Taking Sale</u> or <u>Virtual Cookie</u> <u>Share Order-Direct Sale</u> follow the steps below:
